

LOCK-OUT / TAG-OUT BONNET HANDLE SYSTEM

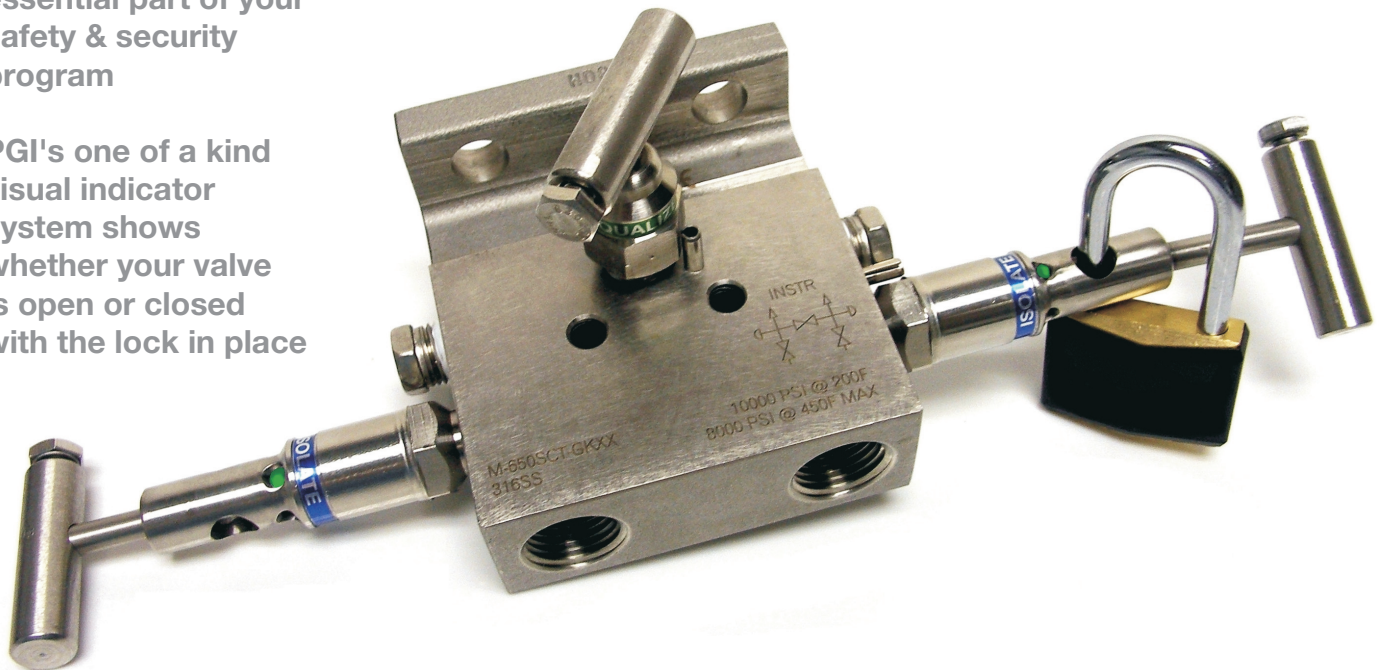

FOR SAFE AND SECURE MEASUREMENT

ISO 9001:2008 Certified Quality System

Bonnet Handle Lock-Out / Tag-Out

Prevent unauthorized valve cycling with this essential part of your safety & security program

PGI's one of a kind visual indicator system shows whether your valve is open or closed with the lock in place

PGI International
Excellence Through Innovation

BONNET HANDLE LOCK-OUT

Simple, Safe & Secure with No Lost Handles

Available in .187" and .375" orifice Patented Pressure-Core® Stem Sealing System with 5 year leak-free, maintenance-free warranty

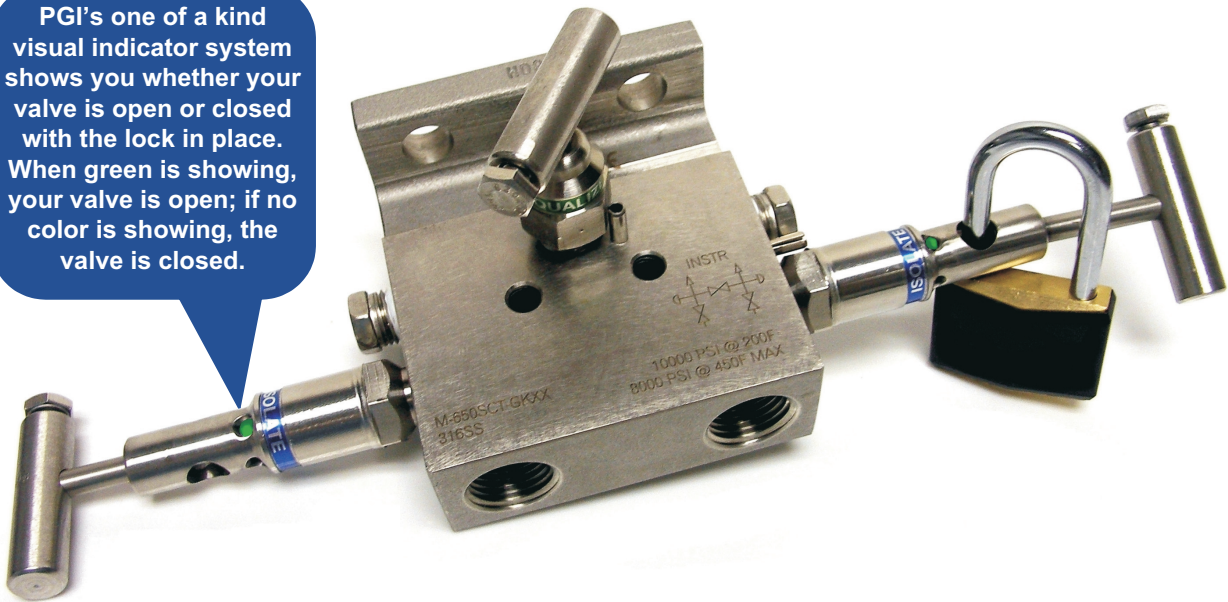

Grafoil® and Teflon® packed available without visual indicator

Available on: Instrument 2-Valve, 3-Valve and 5-Valve Manifolds
Hand/Gauge/Bleeder/Multiport/Root Valves
Block & Bleed/ Double Block & Bleed Valves

Easy Operation and Verification - It's just this easy!

1. Place valve in desired OPEN or CLOSED position.
2. Visually verify position (green = open; no color = closed).
3. Raise integral handle away from valve body.
4. Install your lock.

PGI's one of a kind visual indicator system shows you whether your valve is open or closed with the lock in place. When green is showing, your valve is open; if no color is showing, the valve is closed.
